ASSESSED VALUE OF COUNTY IS INCREASED

Half Million Jump Is Made In Taxable Property Here

NO COMPLAINT FILED

Equal Assessment Of Property Is Tribute To Officials

The value of Mendocino county's assessable property increased $625,415 during the past year, according to the new assessment roll which has just been completed by Assessor W. S. Van Dyke and his efficient deputy, Volney Van Dyke. The assessed valuation in 1915 was $15,867,814 and during the past twelve months has jumped to $16,492,229.

Several more veterans have taken advantage of the law which placed their property on the exempt list, the value of which increased from $43,845 to $63,260 during the year. Assessments in incorporated cities, however, are on the decline and the valuations decreased from $738,202 to $651,879. This is said to be on account of money having been drawn out of banks in the several incorporated towns.

Auto Values Soar

The number of automobiles owned in the county increased from 355 to 458 up to the first Monday in March, when assessments are levied, and the value of these cars soared from $97,910 to $117,248.

There has also been a noticeable increase in the number of cattle in the county, which goes from 17,864 head in 1915 valued at $15 a head to 21,967 worth $20 a head at the present time. All other stock has decreased, however, with the exception of horses.

People Have Money.

The assessor's report shows the people of the county to be prosperous, since approximately $20,000 more was assessed to individuals this year than last.

When the supervisors met as a Board of Equalization not a single complaint was made to them of alleged unfair assessments or favoritism, and the work of Assessor Van Dyke is apparently entirely satisfactory to all taxpayers in the county. This is a high compliment for this popular official and his assistants and shows that the work in his important office is exceptionally well cared for.

$17,100 ESTATE IS LEFT BY H. M'KOON

An estate worth $17,100 was left by Horace McKoon, who was killed in an automobile accident at Guidiville on Saturday, July 8, according to a petition for probate of will filed in the superior court this week. Mrs. Mary S. McKoon, the widow, is the petitioner and she is represented by Attorneys Mannon & Mannon.

The estate consists of an undivided half interest in 1100 acres of land near Largo, together with the stock and farm implements. Included in the estate is a $100 promissory note on the Ukiah Farmers' Club.

The petition will be heard by Judge White on Monday August 21 at 10 o'clock.

'MONTE CARLO' PLAY COMING TO VICTORY

"Mr. Grex of Monte Carlo," a picturization of E. Phillips Oppenheim's widely read novel of love, international intrigue and adventure, has been booked by Manager W. R. Cox of the Victory Theater and will be shown at that popular playhouse tonight.

In presenting this gripping story on the screen Theodore Roberts, one of the most popular artists of the screen, will be seen in the leading role. The melodramatic features of this wonderful story revolve around the efforts of an English secret service agent to learn details of a meeting of foreign diplomats at Monte Carlo.

The action of the play takes place on land and sea and there are many splendid scenes, as well as a stirring story and the gripping climax.

McKesson, head of the commercial department of the Santa Rosa high school, motored here Monday in the latter's car, and spent two days at the home of Maurice McKesson. They returned home by way of Lakeport, where they visited Mr. and Mrs. McKesson's daughter.

FAIR NIMORDS ON COON HUNT WIELD BROOM

Brer Coon met an untimely death early Saturday morning when he was surrounded by a galaxy of fair nimrods, armed with brooms and rolling pins, merely because he had partaken, uninvited, of the choicest from neighborhood chicken roosts.

..Saturday morning he breakfasted from Ted Young's coop, and then the trouble started. Surrounded by an army of suffragettes, he was helpless...And then came Dr. Frank Rea with forceps to extract tusks and release him of the only means of defense he had.

But about that time Frank Patton appeared on the scene with a small caliber rifle and a dog, and after a genuine southern "coon hunt," a lot of little coons in Coontown were lefe fatherless.

JOHN CUNNINGHAM AUTO WRECK VICTIM

John Cunningham, who owns a large ranch on Robinson creek, is at the point of death in a San Francisco hospital suffering from a possible fracture of the skull, internal injuries and cuts and bruises, as the result of an automobile accident in the metropolis Wednesday night.

Cunningham was accompanying two friends on an automobile ride through the park, returning from the beach. At the Thirty-sixth avenue entrance their car collided with another machine and both cars were wrecked.

All of the men were hurt, but Cunningham suffered the most severe injuries. Mrs. Cunningham came in this morning from the ranch and expected to take the early train for San Francisco.

SIX MONTHS WRECKS THIS WORK OF CUPID

Six months after they had secured a license and launched their ship on the sea of matrimony, Narcisa Petroni found the rowing too hard and wrecked the boat. As an aftermath a suit for divorce was filed this week against the spouse, Giovanni Petroni.

They were married in this city July 6, 1915 and the complaint alleges desertion on July 10, of the same year. Mrs. Petroni says her husband earns $45 a month, but asks for no alimony.

Weldon and Mockler are the attorneys for Mrs. Petroni.

FORMER LOCAL RESIDENT RENEWS ACQUAINTANCES

J. F. Utter, a resident of Willits more than a quarter of a century ago, and now a successful attorney in San Francisco, motored here the early part of the week and renewed acquaintances in Ukiah. He was en route to Lake county where he is the guest of J. J. Dashiell. Mr. Utter was for several years school superintendent of San Mateo county.

ONE HORSE KILLED WHEN TEAM GOES OVER GRADE

A horse owned by Miller's stable was instantly killed and another seriously injured late Friday evening when they backed over the grade near Wattengerger's. J. A. McCorqudale, who was driving, had stopped to water the horses when one of them reared and backed the wagon overboard. He was taking a load of freight to the W. P. Fuller ranch in Gravelly valley.

They motored here Sunday and were married at their home Sunday evening by Judge James C. Hurley.

Mrs. Mattern has many friends in Ukiah who will welcome her back to this city, and will extend congratulations to the happy couple.

LOCAL MAN WINS DEBATE WITH DR. JORDAN

Stanford Chancellor Tells Sportsmen He Erred

LA MOTTE IS UPHELD

Steelhead and Rainbow Trout The Same He Admits

As the echo of a controversy started twenty years ago when Dr. David Starr Jordan, chancellor of the Leland Stanford University, disputed the claim of Colonel A. V. LaMotte of this city that steelheads and rainbow trout were one and the same fish, the famous Stanford scientist has admitted his error and declares the contention of the Ukiah man correct.

The controversy was one of the most bitter of the many newspaper scraps in which Dr. Jordan has participated and attracted State-wide attention. Fish experts entered freely into the fray, but some years ago Colonel LaMotte received word from Washington that his opinion had been upheld by the government experts.

According to Colonel LaMotte, the trout of the short coast streams of California are of the species of salmo irideous, or rainbows. The steelhead is the adult sea-run from the same species, the salt water giving them a different coloring from the salmo irideous found in the fresh water of the mountain streams.

PATIENT AT ASYLUM HANGS SELF IN WARD

David Sutton, a patient at the Mendocino State Hospital, hanged himself in Ward 7 at the Talmage institution at an early hour Saturday morning. He waited until Nightwatchman Keller had completed his 4 o'clock round and then secured some strips of bed ticking, tied them around his neck and to an overhead water pipe. When the nightwatchman made his next round an hour later, Sutton was dead. He made no disturbance and none of the patients or attendants were awakened. Sutton was about 37 years old and had no relatives here. A coroner's jury was held and he was buried in the asylum cemetery.

QUITS SCHOOL FOR PROPERTY; NOW SUES

When Miss May Williamson was of tender age and should have been attending school in Covelo, she was working on the ranch of Mr. and Mrs. C. D. Morgan on the promise that if she sacrificed her educational advantages for farm drudgery, their entire estate would be left to her.

On this ground she has filed a petition in the superior court against Fred Warren, administrator of the estate, asking that the property be set aside and held in trust for her.

Miss Williamson is represented by Attorney G. E. Redwine.

BIG BOOSTER NUMBER IS ISSUED BY BYRON TIMES

Editor Harry Hammond of the Byron Times knows how to boost, and he never loses an opportunity to say a good thing about the community he represents. Last week the Times celebrated its tenth anniversary and in a 168-page Booster Edition, Hammond told a few things about Byron, Stockton and neighboring towns that would fairly make one itch to locate there. The edition is well illustrated and nicely printed, and this energetic editor is to be commended on his good work.

CITY IS NOW MONKEYLESS MANY GRIEVE

Big, round, watery, wet tears were shed in this city Wednesday when "Tillie" and her nameless mate bid adieu to Ukiah and departed for the wilds of Round valley.

"Tillie" has for six years been mascot at the Victory theater, and is the monkey who has caused her owner, W. R. Cox, to more than one call out the reserves to herd her back into the cage when she nibbled the wires in two.

But Wednesday she tired of nibbling wires, and took a healthy bite out of her owner's leg. That ended the reign of "Tillie" over the Cox household. Ten minutes later two monkeys, securely nailed up inside a crate left town. The shipping tag carried the name, "Archie Moore, Covelo."

SISTER OF LOCAL RANCHER ENDS LIFE

"Dear August—I have written you that I can not stand it any longer, so I will take something today that is very effective. Frieda"

This message told August Hinrichs, who has a claim in the northern part of the county, of the suicide of his sister, Miss Frieda Hinrichs in Oakland last Monday. He hastened to the bay city to attend the funeral.

Miss Hinrichs, who was a teacher of music, was despondent and ended her life by swallowing poison.

PICNIC LUNCH IS COOKED WHILE MOTORISTS MOTOR

County Treasurer George Johnson has solved many problems of motor comfort and as an enthusiastic picnicker he is in a class quite alone.

It happens that Johnson is equally as enthusiastic over chicken fricassee as he is motoring, and the problem of supplying a nice hot drumstick for his picnic luncheon is a problem that has worried him not a little. But now he has it!

Last Sunday he loaded onto the running board of his car a fireless cooker, loaded to the brim with fricassee, potatoes to be roasted and other delicacies. When camp was spread a few hours later in a shady nook north of Willits—but what's the use of working up an appetite like that when one has neither a chicken farm, an auto nor a fireless cooker. But it worked and the new "cook" has become a very important part of the equipment of the Johnson car.

BROWNIES VS ANGELS

The Ukiah Brownies and the Ukiah "Angels" will mix on the local diamond Sunday in what promises to be a hotly contested game.

MEMORY POOR, BUT THINKS HE WAS SHOT

Tom Olsen, a Caspar fisherman, has a very poor memory. Also he has a severe wound on his forehead, but he can't remember whether he fell down and bumped it or whether someone shot him through the head.

When he appeared in Justice Wallace's court at Mendocino Saturday to pay a fine of $20 for battery, he told the officers that someone had shot him, somewhere, sometime. Dr. Preston made an examination and found the forehead powder-burned and the flesh badly torn.

Later he said that he had fallen down, and only imagined that he was shot. But, to give Olsen the benefit of the doubt, it is apparent from his testimony that he was at least half-shot.

ADVENTISTS AT CONFAB

POLITICAL BEE IS BUSY; MANY ARE STUNG

Congressional Timber Is Growing Too Fast For Democracy

WOULD COMPROMISE

Everybody Runs Except Seawell, And They're After Him

The democracy of the first district will have a forest of available Congressional timber to choose from, if prospective candidates continue to step into the limelight with the rapidity which has marked the past week.

At a convention held in San Francisco last Monday pressure was brought to bear on William S. O'Brien, former newspaperman of Marysville, and he was forced to withdraw from the race so that the nomination could be handed, seemingly by the Democratic representatives of the district, to District Attorney Clarence F. Lea of Santa Rosa.

Pledge Is Broken

This selection, however, failed to be a pouring of oil on troubled waters and worked quite the opposite of what the engineers had anticipated. And it all rests upon a pre-arranged program which for some unknown reason became lost in the shuffle and as a result the counties bordering on the Sacramento valley are peeved all the way through because a campaign promise has not been kept.

The Democracy had agreed that Judge Emmet Seawell, of the Sonoma county superior court, should be their unanimous choice, and the opponent of Edward H. Hart, who carries the unanimous indorsement of every Republican county central committee in the district. But when the suggestion was made to his Honor that he doff his magestrial robes and enter the fray, he declined with the statement that he preferred to sit peaceably upon the bench of justice and be an on-looker rather than a participant in the scramble.

Yuba County Is Peeved

With his declination, the valleys commenced to get busy to scare up a candidate and O'Brien's announcement was made by the Yuba county bunch. They contended that since they were willing to support Sonoma's first choice, they should be given a chance to name the next man. But Sonoma did not "get" the idea. They immediately shoved Lea into the arena and when a scrap loomed up the San Francisco conference was hurriedly called to quiet affairs.

It is said, however, that Yuba, Sutter and Butte counties are not entirely pleased at being shoved into the background and it is a question whether their votes will go to Lea or to Hart.

The Mendocino county central committee of the Democracy remains loyal to Seawell, and still has hopes that he will step into the race in time to save the day.

COUNTY RECORDER REDMEN'S BIG CHIEF

Figone, Second Sannap; Fred Figone, First Warrior; Cecil A. West, Second Warrior; V. W. Church, Third Warrior; E. J. Garaventi, Fourth Warrior; G. C. McGimsey, First Brave; E. A. IN ANOTHER'S LIFE

PRESUMABLY you are fairly well satisfied with your own life as you live it, and are inclined to congratulate yourself and be glad because you did not make a worse mess of things. You pass in complacent review the number of errors you might have committed, and modestly admit that you re-refrained from making a fool of yourself on many occasions.

Your autobiography thus becomes, like Stevenson's diary, "a melancholy school of posturing and self-delusion;" and you may now ask yourself what good it did to sit in a box, taking your hat off to this parade of your own virtues. The world does not particularly care to listen to a man's serenade of himself. It is pleased to find one who can be great and keep it a secret as far as his personal confession of the fact is concerned. It is a little doubtful whether a man can be really great and be vain at the same time.

Instead of developing expertness and eloquence in setting forth to others, and to our own entranced hearing, how remarkably gifted and successful we are, is it not a happier process to acquire the art of comprehending and translating the point of view of others?

There are people who have made themselves greatly loved by their knowledge and use of this art. You feel when you are with them that they are not critical (in the sense of censorious) and so you are at your ease, which means to be at your best. This positive genius for tact, this inspired insight, makes the rough places plain for you, and expounds your true meaning so that it is apparent to others. Sometimes when it is used in a company we call it "the social gift." A woman blest with it is herself a blessing where she comes, for a true sympathy—not a mere sirupy effusiveness—enters the room and prevades the asmosphere with her presence.

"To know all is to pardon all." Like every epigram, the saying overstates the truth, but the truth is there. Could you see into the other man's life you would be at once more forgiving and more admiring. Those who care for him—and you cannot see why they should care—have found something in him you were too blind to discover. Perhaps their liking has a better right to live than your aversion.

Few men can resist those who seem to take an intelligent interest in their concerns; this is the strong, sure means of seductive flattery. But if it does not proceed out of sheer goodness of heart, and a real and kindly solicitude, it will soon be rejected for sincerity, even though sincerity be curt and plain of speech. Compliment for the mere sake of compliment wears its betrayal on its face, and is brought to confusion by its own tongue.

The well-beloved are those whose desire to help is as unaffected as it is benign. They are dear and good because they know no other tongue. Their lives are a continuing sacrifice; they go like motor ambulances where they are needed, and they bring first aid to those injured in ways beyond the reach of implements and bottles. They do not know that their faces shine, and that communion with the angels is looking from their eyes.

Tempting The Postman

NOT LONG AGO a gentleman in San Francisco who owed $10 to a gentleman in New York, sent the amount by mail and liquidated the debt. Now there is nothing remarkable about one man paying off a small loan of $10 to another man. This sort of thing is done among gentlemen every day; but there is something remarkable in the manner whereby the $10 in this case was transmitted across the continent.

The man in the bay city who owed the money merely tied a string tightly around the waistline of a $10 note, attached to the end of the string a tag bearing the name and address of the man in New York to whom he owed the money, then dropped note, tag and string into the nearest mail box.

It appears that the San Franciscan had a wager with a friend that the New York man would receive the $10 sent in this unique manner, in good condition. Well, the man on the Golden Slope won the wager.

The $10 not arrived at its destination O. K. It also bore evidence of having been handled, fondled and carressed en route—it looked as if it had been held up on the way across the country and had only arrived by the skin of its teeth, as one might say.

It appears to me that this was a mean temptation to throw in the way of Uncle Sam's postal clerks. If I were a postal clerk and should suddenly, in sorting letters, come upon a perfectly good, loose $10 bill with nothing attached to it except a frail string—if upon getting my lunch hooks on a crinkly note of that denomination I found myself sorely in need of 10 bones, it would take considerable moral courage on my part to kiss that delicious looking banknote goodby and permit it to continue on its journey.

However, this little insident merely confirms the proposition that in proportion as you put your faith in folks they will justify it. Here is a testimonial to the honesty of the boys in gray who work for Uncle Sam.

THIS time of year a popular ideal of happiness is represented by a mud turtle on a log, dreaming in the sun.

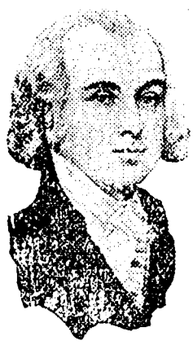
ELECTING A PRESIDENT 4



MADISON.

Madison Defeats Pinckney Decisively In 1808.

THE Democratic Republicans nominated James Madison of Virginia in 1808. His running mate was George Clinton of New York. The Republican ticket that year was C. C. Pinckney of South Carolina and Rufus King of New York. The election took place on Nov. 8, and the vote, as counted on Feb. 6, 1809, was: Madison, 122; Pinckney, 47.

In the election of 1812 Madison, renominated by the Republicans, defeated DeWitt Clinton of New York by a vote of 128 to 89. Nominations were made by a caucus, and Clinton refused to be bound, and the Federalists decided to support George Clinton.

(Watch for the election of Monroe in 1816 in our next issue.)

Right Off The Reel

By SLAM BANG

How dear to my heart are the clothes of my childhood!
When hot summer weatner recalls them to mind;
An old ragged shirt and a like pair of trousers,
Held up by a button in front and behind.

A woman can make a neighborly call in two minutes—that is, if you will allow her fifteen minutes for saying good bye.

HOME AND HOUSEHOLD

When the sink, bathtub or washbowl has become clogged one may easily remedy this instead of sending for the plumber. Take a piece of old garden hose the desired length, fit one end over the faucet and the other over the drain, so that no air escapes. Now turn on the water. The direct pressure will remove the obstructions within a few minutes.

Serve Vegetables on Toast—Serving green vegetables on toast is an economical as well as palatable method. It makes the vegetable "go further," adds considerably to the total food value of the dish, and is one more good way of using stale bread.

DICTATES OF FASHION

Midnight blue and faded pink is a good combination.

Some of the prettiest silk petticoats imaginable are corded ones.

With a biscuit colored chiffon gown a touch of emerald is enchanting.

Some of the suit coats fasten under the arm, just as some dresses do.

The Greek note is seen this season in the immense variety of pleatings.

Some of the prettiest suit coats button only at the waistline and the throat.

Silk gloves are being embroidered in pastel colors to follow the trend of the mode.

COMMENT and EXCERPTS

SOME people probably will make lamentation when they read the prediction of the United States Department of Agriculture that high prices for meat will continue without definite end. Analyzing the situation, the Department finds that production of meat in this country has failed to keep pace with the increase in the population and that during the fiscal years 1914 and 1915 the United States imported more fresh, chilled and frozen beef than it exported.

These facts have a significant bearing on the nation's economic future. It is of no avail to deplore the disappearance of the great western ranges. The nation now has better use for the old grazing grounds, which have been divided up into farms. It is interesting to speculate, however upon the effect that related developments may have upon the meat problem.

Meanwhile one observes with surprise in view of the extensive efforts made by the Government to spread enlightenment regarding the care of farm animals, that during the last sixteen years approximately 1,475,000 cattle have died annually from disease and 1,500,000 from exposure, while in 1914 at least 7,000,000 hogs died from cholera. Clearly efforts to conserve and increase the meat supply must continue at least until the waste of animal life becomes a great deal less.

WHO'S WHO

Vice Admiral Sir David Beatty, K. C. B., who took such a prominent part in the recent great naval battle in the North Sea, has commanded the first British battle cruiser squadron since 1912. He entered the navy in 1884, served in the Sudan in 1896-7, and in China in 1900. He was promoted captain in 1900, rear admiral in 1910 and vice-admiral last year. Sir David previous to the great battle off the coast of Jutland, had on more than one occasion, figured prominently in the history of the present war at sea. He was in command of the British squadron in the great naval battle fought off Heligoland in August, 1914, and again in January, 1915 in the action off the Dogger bank. On the latter occasion his flagship, the Lion, was badly damaged and when the battle was at its height he transferred his flag, first to a destroyer and subsequently to the Princess Royal. Sir David Beatty is, of course, an Irishman, being the son of Captain D. L. Beatty of Borodale, County Wexford. Bessie Beatty, star "sob-sister" on the San Francisco Bulletin, claims relationship with the distinguished naval officer.

The KITCHEN CUPBOARD

HOT BISCUITS.

EGG SCONES.—Two cupfuls flour, two teaspoonfuls of baking powder, a tablespoonful of melted butter, an egg, a cupful of milk. Break the egg and beat slightly, add milk and beat again and pour into flour. Add a pinch of salt. Beat and drop by spoonfuls into baking pan. Bake about twenty minutes.

Biscuit.—A cupful mashed potatoes, a cupful flour, four teaspoonfuls baking powder, one-half teaspoonful salt, a tablespoonful butter, a tablespoonful lard; milk, about one-half cupful. Sift the dry ingredients. Add these to the potatoes, mixing with a knife. Work the fat into this mixture lightly. Add gradually enough milk to make a soft dough. Toss the dough on to a floured board, pat and roll it lightly to one-half inch in thickness. Cut it into shape with a biscuit cutter. Place the biscuits on greased pans and bake for from twelve to fifteen minutes.

Dumplings.—A cupful mashed potatoes, a cupful flour, one-half teaspoonful salt, two tablespoonfuls butter; milk, about three-quarters of a cupful. Mix and roll out the dough according to directions given for biscuits in the preceding recipe. Place the dumplings close together in a buttered steamer, place the steamer over boiling water, cover it closely and steam the dumplings for twelve minutes.

Muffins.—Four tablespoonfuls butter, four tablespoonfuls sugar, an egg, a cupful mashed potatoes, a cupful flour, four teaspoonfuls baking powder, salt, a cupful milk. Cream the butter and sugar, add the egg, which has been well beaten, then the potatoes and mix these ingredients thoroughly. Sift the flour, the baking powder and the salt together and add them and the milk to the mixture alternately. Bake the muffins in greased gem pans for from twenty-five to thirty minutes.

Corn Breakfast Muffins.—Three eggs, one and one-half cupfuls white cornmeal, two cupfuls buttermilk, one-half cupful flour, a teaspoonful each of soda, salt and baking powder, two teaspoonfuls sugar, two tablespoonfuls butter. To the yolks, beaten very light, add the buttermilk; sift into this all the dry ingredients and stir in melted butter. Pour into greased and hot muffin rings and bake in a quick oven.

Fetching Negligee For Hot Days

Design by Franklin Simon & Co., New York.

THIS is the era of all sorts of beautiful negligees. The one pictured is of hand embroidered crepe de chine in pink, rose, copenhagen, light blue or orchid, cut with a semi-fitted back and draped front. Pin tucks cluster at the elbows and shoulders, and the ruche is picot edged. The garment has both style and comfort.

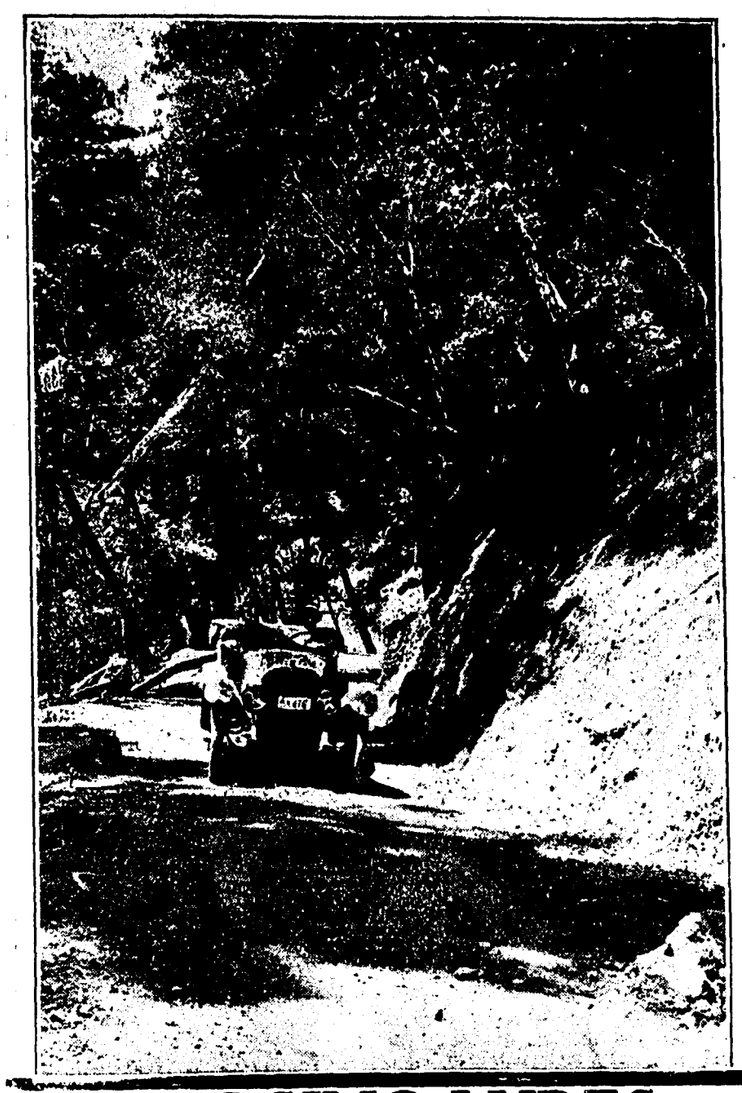
'Midst Scenic Grandeur

San Francisco motorists enjoying a tour along one of Mendocino's picturesque highways.



MENDOCINO LURES MANY MOTORISTS

Beautiful Vistas, Wonderful Drives Admired by Visiting Tourists

By LEON J. PINKSON.

CALIFORNIA offers no greater variety of scenery in any one section of the State than that which is embraced within the boundary lines of Mendocino county. In point of variety no fitting summary can be made of its extent or its magnificence in either one or a hundred well-chosen paragraphs.

No word picture can adequately describe the county's wonderland of scenery, its fertile slopes and verdant meadows, its remarkable groves of pine, fir, cypress, oak, redwood and fruit-bearing trees, and its beautiful flora, so as to arouse in one a conception or appreciation of Mendocino's outdoor charms. To really understand this, one must go and see for one's self.

Over Sherwood Road

The following account of a tour through Mendocino county, made by a party of San Francisco motorists is not intended as a description of the joys of that trip, but merely as a guide for other motorists who can appreciate the unusual in nature and her rarest and most remarkable manifestations.

Crossing the Sonoma-Mendocino county line, just north of Cloverdale, the tourists followed the State Highway to Ukiah, thence to Willits. At the latter place they took the road leading to Sherwood, thence north and west to the coast, passing through Mitchell's, Branscomb, De Haven, Westport, Kibesillah, Newport, Inglenook to Fort Bragg, ariving there late at night.

Beauties Along Coast

Leaving Fort Bragg early the next morning, the tourists retraced their course as far north as DeHaven, from which point they continued still further north along the coast, passing through Hardy, Union Landing, Rockport, Devilbiss, Usal, Kenny and French, where camp was pitched for the night.

Being near the Humboldt county line and deciding to see more of the wonderful, rough coast scenery of Mendocino, the following day the motorists drove back to Fort Bragg, thence down the coast, passing through a score or more of lumber camps, the principal ones of which were Noyo, Mendocino City, Albion, Greenwood, Manchester, Point Arena, and Gualala. From the latter point the return trip to San Francisco lay along a route which practically bisected Sonoma county diagonally, thence via the State Highway to Sausalito.

Few Rough Roads

Motorists who may desire to duplicate the tour of this party should not be particularly concerned over rough roads. Such conditions will be found in many places along the route described, but it is stated that the wonderful scenic charms of the journey will more than compensate one for the possible trials and tribulations resulting from bad stretches.

Immediately after leaving Willits motorists will find a long climb over the ridge to Sherwood, most of the road being quite rough and in some places dusty. While the scenery is delightful, as it is the first of the mountainous variety after leaving San Francisco, the real scenery does not begin until, about midway between Sherwood and Branscomb, the snow-capped Sierra come in to view, and as one emerges from the frequent groves of timber wonderful vistas of valleys and the distant coast range unfold themselves in awe-inspiring panoramas.

The Picturesque Route

Between Branscomb and De Haven, a distance of seventeen miles, is a fine mountain road, as good as any in the State, which winds in picturesque fashion over the range and down to the coast. The average grade may run a trifle over 6 per cent, but it is so smooth that one really forgets it is a mountain road.

Leaving De Haven and going north one encounters a fair road, and just beyond Hardy is what is known as the Hardy creek grade, than which there is no more picturesque mountain road in the State. It is almost a duplicate as to road service of that just east of De Haven over the ridge, but it has been so laid out that it seems to actually scale a perpendicular wall. Every time one guides his machine around a curve a section of the road below comes into view. Most of the turns are of the hairpin variety and up near the top of the mountain there are a dozen points from which one can get views of from three to five tiers of the road, like so many gigantic steps in a stairway from the gorge to the summit. The difference in altitude between the top of the mountain and the canyon bed is fully 1800 feet.

Scenery Is Beautiful

Between Rockport and Devilbiss the road trails a stream part of the time, then climbs up one of the sides of the mountains for a while only to drop back to the stream again. Foxgloves and rhododendrons grow in great quantities along the road, as well as a score of other kinds of wild flowers which are seldom found in other parts of the State, certainly not attaining so glorious a size as they do in Mendocino.

Between Westport and Fort Bragg there is a piece of road which literally hangs out over the angry sea. Many motorists, especially those subject to timidity, would prefer to drive over this with their eyes shut, for in their minds certain death lurks just around the next curve. There are extremely few places where cars may pass, but fortunately many cars do not have to pass along there.

The Ten Mile Bridge.

A short distance beyond is Ten Mile creek, which is spanned by an exceedingly long timber bridge, a model of its type of construction. From Fort Bragg south to Gualala, just beyond which one enters Sonoma county, the marine scenery is magnificent. Nothing in California compares with it. Every jutty projection of the land has its quota of gigantic, jagged rock formations, every cove is littered with sharp-toothed boulders, and around each and piled on the sandy strips between, are mute evidences of marine disaster of the past.

GOLDEN WEST HOTEL IN SAN FRANCISCO RE-OPENED

The Golden West Hotel, San Francisco, long the favored stopping place of many local people when they visited the metropolis, has been re-opened by Fred Plagemann. He has been the proprietor for the past 20 years. A disagreement with the agents of the place led him to close the hotel this spring, but this now has been adjusted and Plagemann has the hotel again open, even cosier than before.

It appeals to particular people because it is particularly good; Old Gilt Edge Whiskey, rye or bourbon.

James J. Corbett by Walt Mason

Once there were giants in the land, men who could scrap to beat the band. In modern times the cheapest skates are known as champeen heavyweights, but long ago, when Jim was young, men didn't fight with jaw or lung, but used their fists, and used them well—brave days of Jackson and John L.! They slugged away, while they could stand, when there were giants in the land. And Corbett won his laurels then, among those mighty fighting men. He was the champion when that meant something more than getting fat, and standing, in a graceful pose, to figure in the movie shows. He's an authority on sport, and his decrees the wise ones court. He's an authority on smokes, and as his trusty pipe he stokes, he often says, "Tuxedo's best; it has the edge on all the rest."

JAS. J. CORBETT
Famous Prizefighter and Actor, says:
"My enthusiasm for the fragrance and mildness of Tuxedo has no limit. Tuxedo is without doubt the most satisfactory pipe tobacco."

NEW MOVIE FIRM IN MARIN COUNTY

Corte Madera, Marin county, is the home of the Rainbow Film Company, a new movie incorporation, which has recently been organized, and plans are already being prepared for the erection of an elaborate studio in this picturesque part of the north bay county.

A. F. Roberts, wellknown San Francisco businessman and promoter, is one of the directors of the new firm and predicts a healthy and rapid growth for his infant company.

An aviation field three miles square and leading out to the bay is one of the features of the company's plant, and Roberts declares that he has secured a wellknown company of legitimate performers and some excellent scenarios from noted authors. The first films will be out the latter part of this month.

LOCAL HATCHERY SENDS TROUT FRY TO LAKE COUNTY

THOUSANDS OF STEELHEADS ARE TAKEN FROM UKIAH TO STOCK THE STREAMS

The Upperlake Sportsmen were on the job Tuesday when a big shipment of trout fry was received from the Ukiah Hatchery. 61,000 young fish were brought in by auto truck that morning and speedily transferred to waiting autos, which distributed them in the creeks of the Upperlake section. J. W. Ricker of the hatchery was in charge of the shipment.

Of this planting 22,000 were deposited in Bear Creek, 16,000 in Bartlett creek, and the remainder divided among Middle, Clover and Hazel Springs creeks. 30,000 more fry are expected by the Upperlake fishermen soon. These fish will be of catching size next season, and sport will be good in these sections. 55,000 fry were planted by the Upperlake boys last year.

The fish are furnished free by the State Commission, but the expense of transporting them from the hatchery and cost of ice, was met by the sportsmen of Upperlake. This action ought to be an incentive to the Lakeport sportsmen to distribute fish in Scotts creek and Kelsey creek, to be fair in the matter and to improve local fishing conditions.— Clear Lake Press.

MYSTERIOUS DEATH OF YOUNG MOTHER CLEARED; SUICIDE

BODY OF NEW-BORN BABY WAS FOUND NEAR THAT OF MRS. MAUDE BURKE

Despondent over ill health and domestic difficulties, Mrs. Maude Burke, wife of Edgar Burke of Upper Lake, ended her life by firing a bullet through her brain last Saturday shortly after leaving the home of her sister, Mrs. Ernest McCullough at Upper Lake for this city. The body was found Thursday by an Indian fisherman in Scott creek, a short distance from the former site of the Lake County Canning Company's plant.

Murder was the first theory advanced by the Lake county officers, and Sheriff Ralph Byrnes and District Attorney McCowen hastened to the scene, but after finding the revolver under her body and the uncovering of other evidence, the coroner's jury returned a verdice of suicide. The body of a new-born babe was found a short distance away.

Mrs. Burke was 25 years old and was a daughter of Lee Johns, a Lake county pioneer. She was well known here. The funeral was held in Upper Lake.

So Wags the World

By The Tattler

The other day—when I was squandering along—wondering how much more some of these candidates were spending—than the law allows—I saw a sign in a window.

And it said—"Shoes Repaired While You Wait."

And I had seen the sign before.

—and wanted to go in—and see what would happen.

—but I never could remember—whether my guaranteed socks—were keeping their guarantee—or not.

But this time—there didn't seem to be anybody in the place.

—and I thought I'd take a chance.

And I went in—and sat down.

—and took off my shoes.

And I felt all right—after I took off the right one.

—because all of my toes—on that foot—were concealed—modestly.

And a man grabbed the first shoe—as I took it off.

And handed it to another man.

—who looked at it unsympathetically.

—and then attacked it.

And when I got the other shoe off—and handed it over the counter I saw my big toe sticking out.

—and sort of smiling at me.

And I sat down—and picked up a copy of a San Francisco paper.

—because I had already read The Press.

—and went to reading the financial column.

Because I don't know anything more about finance—than some financiers do and they only know how to get the money.

And the machinery whirred—and I kept on reading.

And they finished the half sole on one shoe.

And I began to think—maybe— that I could get back on the street.

—before anybody else came into the shop.

But a newsboy came in—and saw my toe.

—and grinned.

—and tried to sell me a copy of the Saturday Evening Post.

And an old lady came in—looking at the floor—as though she had lost something.

And she saw my toe.

—and smiled—as though it was what she was looking for.

And she sat down—where she could keep it in sight.

And it seemed to me—as though I could feel her looking at it.

And my toe began to itch.

—and I wanted to scratch it.

—and I didn't know what to do.

—so I started to read the society news.

And my toe began to twitch— or I thought it did.

And I glanced at the old lady—and she was putting on her glasses.

—so as to get a better look at it.

And by this time—it was really hurting.

And I watched the man—and when he made the last touch on my second shoe—I stepped over—and took it out of his hands.

—and put it on the wrong foot.

And I tried to get away without my change—but the old lady tapped me on the arm.

And she looked over her glasses at me—very kindly.

—and she hoped I would pardon a total stranger—but she had raised a large family of boys.

—and she was a lot older than I was.

—And then she whispered—in my ear.

—and I knew that my toe—had gotten me into a mess.

But she said—

"Young Man—I am older than you—and my eyesight is very poor.

—"Could you tell me the time?"

UKIAH MINING MAN GETS VALUABLE ORE IN SONOMA COUNTY

GEORGE ELDER TELLS OF BIG MANGANESE FIND NEAR HEALDSBURG

George W. Elder, local mining expert and holder of large manganese interests in Redwood valley, Potter valley and other parts of this county, returned the early part of the week from San Francisco where he had been having ore from several new ledges assayed. He is especially well pleased with samples which were taken from Round valley and from a new manganese find near Healdsburg, in Sonoma county.

He expects to send a prospector to Healdsburg within the next few days who will examine the property more thoroughly, before sending a crew of men there to begin operations.

"One of the most interesting phases of my limited exploration of the Sonoma county property," said Elder, "was the discovery of fine specimens of rock indicating the near presence of tungsten. This is, so far as I know the first instance of a find pointing to the existence of tungsten ore in this region. This element of development will receive serious attention, because the high price of this material renders even a limited deposit of very great value."

Mr. Elder is meeting with splendid success with his mines in this county and has learned that his predictions of several months ago were none too optimistic. During the past twenty years he has been identified prominently with the development of the resources of California. For many years he was in the employ of the Spreckels interests as mining expert.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

GOOD ROADS DAY URGED IN PETITION SENT TO GOVERNOR

AUTOISTS OF STATE ASK THAT SPECIAL DAY BE FIXED FOR CELEBRATION

A petition is now being circulated among the motorists of the State and will be presented to Governor Hiram Johnson asking that a special day be set aside to be known as "Good Roads Day." The text of the petition is as follows:

"Whereas—There is a general movement on foot among the Governors of the Eastern States to set apart some one day during the week of August 6th to 12th inclusive as a "Good Roads Day" and

"Whereas—We understand that such a movement is already on foot in our sister states of Washington, Oregon, Nevada, Utah and Arizona, and

"Whereas—We believe that the good roads movement is of greater benefit to our Pacific Coast States and to California in particular than to any of the other states in the Union

"Therefore—We the undersigned do respectfully petition that your excellency set apart some one day during the week of August 6th to 12th inclusive as California "Good Roads Day," not as a public holiday but as a day to be generally observed nevertheless, by appropriate exercises throughout the various cities, towns, and municipalities of our commonwealth, by suchappropriate exercises as may appeal to the various Mayors, Boards of selestmen, chambers of commerce, automobile clubs, etc., etc.

"Thanks to the untiring efforts of our State Highway Commission our California State Highways were never in such splendid condition for tourist travel as at the present time. The transcontinental routes are now open and the Pacific Highway, from Seattle to Los Angeles and San Diego, is also in excellent condition and invites the tourists to our sunkist State.

"It seems eminently fitting, therefore, that especially at this time some one day be set apart to publicly announce these important facts to the world for the further glorification and advantage of our State and for the further stimulating of tourist travel Westward."

"BLIND PIG" CASES ATTRACT ATTENTION OF SONOMA EDITOR

TRIBUNE MAN COMMENDS WORK OF OFFICERS IN TRAPPING LAW BREAKERS

Editor R. L. Dunlap of the Healdsburg Tribune has kept in touch with the "blind pig" prosecutions which have occupied the superior court in this county almost exclusively since the first of the year, and in an editorial in the last issue of the Tribune says:

"Mendocino county newspapers have recently chronicled numerous arrests and convictions for the illicit sale of spirituous liquors.

"The courts and the county executive officers have entered upon a practical and sensible crusade, the object of which is to bring these violators of the law to justice and properly enforce the statutes providing for the sale of intoxicants.

"The Ukiah Press of July 7th, contains an account of the conviction of one Rosetti, before a jury, on the charge of selling liquor irregularly. The fine was fixed at $600, a sum sufficiently substantial to have a very discouraging effect upon any persons who might be inclined to follow Rosetti's lead.

"If every community in the state would see to it that the law is enforced, as Mendocino county is doing, we would hear much less about the need of remedial legislation. There is plenty of law on the statute books. What we most need is honest and efficient officials who will enforce the law without fear and without favor."

PLENTY OF WORK HERE; ONLY UNDERTAKERS OUT

There is plenty of work in California except for the undertaker says C. B. Saxon, superintendent of the State Employment Bureau at San Francisco. Jobs galore are listed with the bureau, most of them being in the country. Not enough men are at hand, the superintendent says, to fill the places.

"Of course all these jobs are not choice ones," said Saxon. But if a man is out of work and really up against it, we have work for him at $2, $2.25 and $2.50 a day in the country. The state needs farm hands and steady work is opening up in many factories."

More undertakers and nurses are out of employment in proportion to their numbers in the city than the workers of any other craft and profession, the bureau listings show.

WOMAN THROWN THROUGH WIND SHIELD IN WRECK

Hurled through the glass wind shield on their motor car when it crashed into a log on the Ten Mile grade, near Point Arena, Monday, Mrs. B. A. Werder, of Redwood City, miraculously escaped death. Werder, who was driving, was uninjured, and their two children, who were in the tonneau of the car, escaped with slight bruises. The Werders were touring through this country on their vacation and in negotiating a sharp curve Werder struck a protruding log, concealed by heavy overgrowth, at the side of the road. Mrs. Wereder was badly cut and bruised.

TELLS ON THE KIDNEYS

Ukiah People Have Found This To Be True.

The strain of overwork tells on the weakened kidneys. The hurry and worry of business men, the heavy lifting and stooping of workmen, the women's household cares, tend to wear, weaken and injure the kidneys until they can no longer filter the poison from the blood and the whole body suffers from the waste matter that accumulates. Weakened kidneys need quick assistance. Doan's Kidney Pills are especially prepared for weakened kidneys; tired, worn-out backs—have proven their merit in thousands of cases. Below is convincing proof from this locality.

A. C. Schnesar, blacksmith, Bodago Ave. Petaluma, Cal., says: "At my work I am constantly subject to strains and some years ago I severely injured my back. I was laid up for some weeks and tried several medicines without relief. I finally used Doan's Kidney Pills and two boxes made a complete cure. No sufferer from kidney complaint can do better than give this medicine a fair trial."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Schnesar. Foster-Milburn Co., Props., Buffalo, N. Y.

The VALUE of the Car,—to its Owner,—narrows down, in proportion, to the *precise number of Hours* he USES that Car, yearly.

If a $2,000 Car be owned for, say, 4 years (then sold for [illegible]) there has been $1,400 of Car-Value absorbed by the Owner,—equal to, say, $[illegible] a year.

If then, that Car be USED 913 Hours in the year, it would cost him but 38 CENTS per *Hour*, for Car-Use.

But,—if he used it only HALF *that number of Hours*, yearly the Car would cost him *100%* MORE for every Hour he used it.

How MUCH *he uses it* will depend,—to a considerable extent,—upon *the* PRICE *of* TIRES *and* GASOLENE.

This was *one* of the reasons why we (Jan. 31st, 1915) inaugurated the Goodrich "FAIR-LIST" Propaganda *against* High-prices, and Padded-Price-Lists, on Tires.

It is a further reason why we NOW keep our own Goodrich Prices DOWN to the very moderate "Fair-List" figures here quoted.

• • •

BETTER Fabric Tires are NOT made, and *cannot* be made,—at ANY price,—than are produced by The B. F. Goodrich Co.

A 15%, to 50%, *higher* price could well be justified for these same Tires, by fair *comparison* with *other* Tires sold at 15% to 50% higher prices.

Will you help your own interests (present and future), by further expanding the Sale of *that* Tire which *demonstrates* its Intention, through LOWERING the Cost of its Tires to you, with every INCREASE in its Volume?

Will you thus endorse, and support, the *Goodrich* Policy which automatically PREVENTS OTHER Makers from forcing UP the Market on Tires?

Compare Goodrich Fair-List prices, here quoted.

Bear in mind that NO Fabric Tires,—at ANY price,—are "better,"—no House more Fair, and LIBERAL, on proper Adjustments.

THE B. F. GOODRICH CO., Akron, O.

Goodrich "Fair-List" Prices

30x3	Ford Sizes (Safety-Treads)	$10.40	34x4	(Safety-Treads)	$22.40
30x3½		$13.40	35x4½		$31.20
32x3½		$15.45	36x4½		$31.60
33x4		$22.00	37x5		$37.35

NOTICE,—These Tires are as perfect as Fabric Tires can be made.

But, should any dissatisfaction whatever arise, with any Goodrich Tire, its Owner is invited, and REQUESTED, to take the matter up promptly with us,—the Makers.

He will find that Fair, Square, and LIBERAL treatment will always be extended, on all proper adjustments.

THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and **Uric Acid** troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "An-uric," the new discovery of Doctor Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. If you wish to know your condition send a sample of your water to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined **without any expense to you,** and Dr. Pierce or his Staff of Assisting Physicians will inform you truthfully.

MAIL COLLECTIONS ON SUNDAY PLAN OF POSTAL DEPARTMENT

NEW SERVICE WOULD RELIEVE CONGESTION OF LETTERS MAILED ON TRAIN

Through the efforts of Postmaster W. B. Hagans, a Sunday collection service from the mail boxes in this city has been inaugurated. The aim of the new service, which is now in the shape of an experiment, is that of relieving the congestion of letters which are now mailed on the train and often unavoidably carried past their postoffice.

It is also planned to collect the mail three times daily, instead of twice on week days in the business section. Week-day collections by special carrier, which will be in time for letters to be dispatched on the southbound train, will be made as follows:

LUNA'S PERFORMANCE ON SCHEDULE TIME

For some time Friday night the moon, which should have been full, looked like a slice of watermelon suffering from a felonious assault by a small boy.

The luminary arose with a large chunk bitten out of the left-hand side. As time went on more and more was eaten away until only a thin sector was left to smile faintly on lovers and the like.

All of this was according to schedule. The moon did just as the astronomers told her to. The eclipse began about 7:09 o'clock while the moon was still below our horizon. It reached its maximum at 8:46, and was all over at 10:02 o'clock.

WEDDED HUNDRED YEARS, SAYS RECORD; ONLY WEEK

While Editor William Hanen of the Point Arena Record is sojourning at the Hanen homestead near Philo, the office devil, who has been promoted to editor in chief, is dabbling in ancient history, apparently.

Through an amusing typographical error, the Record boldly states that Herman Fairbanks and Miss Loretta Charlotte Studebaker were married at Manchester Monday afternoon, July 10, 1816.

The ceremony which was performed last week by the Rev. Duncan Monroe united two popular young people, Fairbanks being a prosperous youg rancher of Manchester and the bride being the charming daughter of Mr. and Mrs. Jacob Studebaker of Stege, Cal.

LUMBER COMPANY STARTS "LITTLE VALLEY" COLONY

The Glen Blair Redwood Company began the colonization of Little Valley last week when seven families, comprising thirty-nine persons, were sent out to the valley to establish homes there, says the Mendocino Beacon. The new settlers are Portuguese and came from Honolulu. Another party is on the way here and will arrive shortly. The company allows each family to take up a certain amount of land which they are expected to improve. Until they are able to make a living from their farms, the men are provided with work in the company's mill.

TWO WOODSMEN TRY SUICIDE; ONE HACKS THROAT, ONE HANGS

DESPONDENCY IS RESPONSIBLE FOR DOUBLE TRAGEDY IN LUMBER CAMPS

Andrew Hoaganen, a woodsman, was found dead in a cabin near the Albion Lumber company's mill last Friday morning, having strangled himself to death with a necktie.

Hoaganen had been in Albion only two days, but had worked for some time making ties for Tom Johnson at Wendling. He had been at Fort Bragg for the last seven or eight years and is said to have been drinking heavily. No money or other valuables were found upon his person. Several of his countrymen claimed that he leaves a wife and five children back in Finland.

Caspar Man Cuts Throat

Victor Carlson, an empolyee of the Caspar Lumber Company, was found under the bed in his cabin last Thursday evening at 7:30 with his throat cut from ear to ear and his chest horribly gashed. Carlson had inflicted the ghastly wounds with a razor about an hour before he was found and, had lost a considerable quantity of blood. He had been drinking heavily ever since the Fourth of July, it is said, and his rash act was evidently the result of despondency.

PIONEER STAGE DRIVER ANSWERS CALL OF DEATH

Joe Stokes, one of the first pioneers to pilot a mail stage over the grades of Mendocino county, passed away at Fort Bragg last Thursday after a lingering illness and the funeral services were held Friday afternoon under the auspices of the Eagles, to which order he had long been a member.

Stokes was born in Fitsville, Penn., August 20, 1854, and after coming to Mendocino county drove the Mendocino-Cazadero stage for many years.

He is survived by one daughter, Miss Verna Stokes, and has many friends who will extend to her their deepest sympathy.

SLASHED BY COUNTRYMAN, ITALIAN REFUSES TO TALK

R. Dinotto, an Italian woodsman employed in one of the Caspar camps, was here Saturday and called on Dr. Preston to have some very serious knife wounds on his head and face attended to, says the Mendocino Beacon.

Dinotto had been badly cut by a knife in the hands of a fellow countryman, but would give no information as to who his assailant was nor inform the authorities regarding the matter.

The wounded man was cut over the head and eye, a slice had been cut out of his cheek, and the knife, descending, had slashed his chest and cut his hand. Dr. Preston had to take ten stitches in sewing up the wounds.

World Capitol For Permanent Peace, Urges San Franciscan

Leslie Crawford, of this city, has received from Dr. H. A. Hess, a wellknown physician of San Francisco, who is a personal friend of Mr. Crawford, a phamplet agitating the formation of a world capitol for permanent peace. The idea advanced is a new and logical one, and Dr. Hess writes of it as follows:

"May I interest you in the establishment of a world Capitol, for permanent peace, prosperity, law and order; to be composed of representatives from all participating nations, limited by a constitution, providing for freedom of the seas, the guaranteeing of boundary lines, protection against invasion; and that each nation shall be free to attend to its own domestic affairs?

"A farmer, a city, or one of our states is not required to protect their rights or boundary lines by force. Why not international laws to protect nations?

"All international questions would go to this court for final settlement, so there could be no war between nations.

"A world police and navy would enforce international laws or court decisions and police the oceans.

"Non-participating nations could not long compete and pay their high tax for army, navy and forts.

"Would not a majority of our nations agree to a constitution providing only protection and not interfering in any way with their domestic affairs?

"National armies, navies and forts would not be needed. The State militia could support the peace officers for domestic affairs.

"If arms were made by, and kept under government control, outlaws and thieves could not arm themselves. This would prevent internal war, many crimes and save us a big private profit.

"Leading men in this work agree in their replies to me, that we must finally progress up to this ideal. Will you help to shorten the time, by talking it in private and public, by correspondence, by writing for publication and by interesting representatives of this or other governments directly or through your friends?"

ALBION DOWNED BY BROWNIES IN SLOW GAME; FIVE TO FOUR

"BIG LEAGUE STUFF" FORGOTTEN WHEN TEAMS CLASH ON LOCAL DIAMOND

Five to four was the score last Sunday when Ukiah and Albion met on the local diamond, with the Brownies on the long end. But, like Milady's complexion, score boards are some times very deceptive.

One would imagine a rip-snorting tug-o-war that would make the fans sit up and take notice and keep 'em keyed up to the shrieking point every minute. And again, here's another time when imagination runs away from facts. But then circumstantial evidence never did secure a conviction.

Score Kept Even.

Whether or not the Brownies were slipping over erros and sanctioning plays that never before would be tolerated on the diamond just to encourage the visitors and keep the score somewhere near even, or whether Sunday was a "jinx day" with them, will never be known,—except by Red Brown and his ball tossers. At any rate, they never before have played such poor ball.

Ukiah annexed one run in the first inning when Merr'tt slid home after Davidson swatted the pill for a weak one and was out at first. Ball almost scored another in the second, but Dooley's hit was not strong enough to land him on first and the side was retired with Ball still planted on third.

Ball Skids; Wow!

In the third Albion would have met her usual fate had not Ball skidded and lost a high fly which scored Chambers and Haarby, leaving the score 2 to 1 for Albion. In the fifth Albion almost scored another ono, but after Chambers fanned, Fred Anderson was downed on a high fly to Havidson and A. Anderson whiffed, the side being retired with Haarby on third.

And then the fireworks commenced. Fred Anderson fumbled an easy one and Eilers was the first man across the bag in that inning. He was followed by Merritt. Then the mighty Ern Ruddick, who weilded the willow with all his might, landed on the pill for a two-bagger and Probst brought in another tally. And that put a different complexion on the situation.

Albionites Good Sports

And so it was until the seventh when Dooley brought in the fifth and winning run for the Brownies. In the eighth Gerard Alexander made the rounds on a swift grounder but the visitors were unable to gain the extra run necessary to tie the score. The ninth was played without a scoring and the Brownies annoxed another scalp to their belt.

This is the second time Albion has gone down to defeat before the local team, but they are a jolly bunch of fellows and enjoy playing ball too well to crab over the mere disappointment of being walloped by the county champions.

UKIAH REPUBLICAN-PRESS

CIRCULATION GREATER THAN ANY OTHER TWO PAPERS IN MENDOCINO COUNTY COMBINED. MORE THAN ALL PAPERS OUTSIDE OF COUNTY SEAT COMBINED.

Volume XXXVI. UKIAH, MENDOCINO COUNTY, CALIFORNIA, JULY 21, 1916. Number 6.

ASSESSED VALUE OF COUNTY IS INCREASED

Half Million Jump Is Made In Taxable Property Here

NO COMPLAINT FILED

Equal Assessment Of Property Is Tribute To Officials

The value of Mendocino county's assessable property increased $625,415 during the past year, according to the new assessment roll which has just been completed by Assessor W. S. Van Dyke and his efficient deputy, Volney Van Dyke. The assessed valuation in 1915 was $15,867,814 and during the past twelve months has jumped to $16,492,229.

Several more veterans have taken advantage of the law which placed their property on the exempt list, the value of which increased from $43,845 to $63,260 during the year. Assessments in incorporated cities, however, are on the decline and the valuations decreased from $738,202 to $651,879. This is said to be on account of money having been drawn out of banks in the several incorporated towns.

Auto Values Soar

The number of automobiles owned in the county increased from 355 to 158 up to the first Monday in March, which assessments are levied, and the value of these cars soared from $97,910 to $117,248.

There has also been a noticeable increase in the number of cattle in the county, which goes from 17,864 head in 1915 valued at $15 a head to 21,967 worth $20 a head at the present time. All other stock has decreased, however, with the exception of horses.

People Have Money.

The assessor's report shows the people of the county to be prosperous, since approximately $20,000 more was assessed to individuals this year than last.

When the supervisors met as a Board of Equalization not a single complaint was made to them of alleged unfair assessments or favoritism, and the work of Assessor Van Dyke is apparently entirely satisfactory to all taxpayers in the county. This is a high compliment for this popular official and his assistants and shows that the work in his important office is exceptionally well cared for.

$17,100 ESTATE IS LEFT BY H. M'KOON

The estate consists of an undivided half interest in 1100 acres of land near Largo, together with the stock and farm implements. Included in the estate is a $100 promissory note on the Ukiah Farmers' Club.

The petition will be heard by Judge White on Monday August 21 at 10 o'clock.

'MONTE CARLO' PLAY COMING TO VICTORY

"Mr. Grex of Monte Carlo," a picturization of E. Phillips Oppenheim's widely read novel of love, international intrigue and adventure, has been booked by Manager W. R. Cox of the Victory Theater and will be shown at that popular playhouse tonight.

In presenting this gripping story on the screen Theodore Roberts, one of the most popular artists of the screen, will be seen in the leading role. The melodramatic features of this wonderful story revolve around the efforts of an English secret service agent to learn details of a meeting of foreign diplomats at Monte Carlo.

The action of the play takes place on land and sea and there are many splendid scenes, as well as a stirring story and the gripping climax.

FORMER RESIDENT HERE

Mr. and Mrs. S. D. McKesson of St. Helena and their son, E. C. McKesson, head of the commercial department of the Santa Rosa high school, motored here Monday in the latter's car, and spent two days at the home of Maurice McKesson. They returned home by way of Lakeport, where they visited Mr. and Mrs. McKesson's daughter.

FAIR NIMORDS ON COON HUNT WIELD BROOM

Brer Coon met an untimely death early Saturday morning when he was surrounded by a galaxy of fair nimrods, armed with brooms and rolling pins, merely because he had partaken, uninvited, of the choicest from neighborhood chicken roosts.

..Saturday morning he breakfasted from Ted Young's coop, and then the trouble started. Surrounded by an army of suffragettes, he was helpless...And then came Dr. Frank Rea with forceps to extract tusks and releave him of the only means of defense he had.

But about that time Frank Patton appeared on the scene with a small caliber rifle and a dog, and after a genuine southern "coon hunt," a lot of little coons in Coontown were lefe fatherless.

All of the men were hurt, but Cunningham suffered the most severe injuries. Mrs. Cunningham came in this morning from the ranch and expected to take the early train for San Francisco.

SIX MONTHS WRECKS THIS WORK OF CUPID

Six months after they had secured a license and launched their ship on the sea of matrimony, Narcisa Petroni found the rowing too hard and wrecked the boat. As an aftermath a suit for divorce was filed this week against the spouse, Giovanni Petroni.

They were married in this city July 6, 1915 and the complaint alleges desertion on July 10, of the same year. Mrs. Petroni says her husband earns $45 a month, but asks for no alimony.

Weldon and Mockler are the attorneys for Mrs. Petroni.

They motored here Sunday and were married at their home Sunday evening by Judge James C. Hurley.

Mrs. Mattern has many friends in Ukiah who will welcome her back to this city, and will extend congratulations to the happy couple.

LOCAL MAN WINS DEBATE WITH DR. JORDAN

Stanford Chancellor Tells Sportsmen He Erred

LA MOTTE IS UPHELD

Steelhead and Rainbow Trout The Same He Admits

As the echo of a controversy started twenty years ago when Dr. David Starr Jordan, chancellor of the Leland Stanford University, disputed the claim of Colonel A. V. LaMotte of this city that steelheads and rainbow trout were one and the same fish, the famous Stanford scientist has admitted his error and declares the contention of the Ukiah man correct.

The controversy was one of the most bitter of the many newspaper scraps in which Dr. Jordan has participated and attracted State-wide attention. Fish experts entered freely into the fray, but some years ago Colonel LaMotte received word from Washington that his opinion had been upheld by the government experts.

According to Colonel LaMotte, the trout of the short coast streams of California are of the species of salmo irideous, or rainbows. The steelhead is the adult sea-run from the same species, the salt water giving them a different coloring from the salmo irideous found in the fresh water of the mountain streams.

PATIENT AT ASYLUM HANGS SELF IN WARD

David Sutton, a patient at the Mendocino State Hospital, hanged himself in Ward 7 at the Talmage institution at an early hour Saturday morning. He waited until Nightwatchman Keller had completed his 4 o'clock round and then secured some strips of bed ticking, tied them around his neck and to an overhead water pipe. When the nightwatchman made his next round an hour later, Sutton was dead. He made no disturbance and none of the patients or attendants were awakened. Sutton was about 37 years old and had no relatives here. A coroner's jury was held and he was buried in the asylum cemetery.

QUITS SCHOOL FOR PROPERTY; NOW SUES

When Miss May Williamson was of tender age and should have been attending school in Covelo, she was working on the ranch of Mr. and Mrs. C. D. Morgan on the promise that if she sacrificed her educational advantages for farm drudgery, their entire estate would be left to her.

On this ground she has filed a petition in the superior court against Fred Warren, administrator of the estate, asking that the property be set aside and held in trust for her.

Miss Williamson is represented by Attorney G. E. Redwine.

BIG BOOSTER NUMBER IS ISSUED BY BYRON TIMES

Editor Harry Hammond of the Byron Times knows how to boost, and he never loses an opportunity to say a good thing about the community he represents. Last week the Times celebrated its tenth anniversary and in a 168-page Booster Edition, Hammond told a few things about Byron, Stockton and neighboring towns that would fairly make one itch to locate there. The edition is well illustrated and nicely printed, and this energetic editor is to be commended on his good work.

CITY IS NOW MONKEYLESS MANY GRIEVE

Big, round, watery, wet tears were shed in this city Wednesday when "Tillie" and her nameless mate bid adieu to Ukiah and departed for the wilds of Round valley.

"Tillie" has for six years been mascot at the Victory theater, and is the monkey who has caused her owner, W. R. Cox, to more than one call out the reserves to herd her back into the cage when she nibbled the wires in two.

But Wednesday she tired of nibbling wires, and took a healthy bite out of her owner's leg. That ended the reign of "Tillie" over the Cox household. Ten minutes later two monkeys, securely nailed up inside a crate left town. The shipping tag carried the name, "Archie Moore, Covelo."

SISTER OF LOCAL RANCHER ENDS LIFE

"Dear August—I have written you that I can not stand it any longer, so I will take something today that is very effective. Frieda"

This message told August Hinrichs, who has a claim in the northern part of the county, of the suicide of his sister, Miss Frieda Hinrichs in Oakland last Monday. He hastened to the bay city to attend the funeral.

Miss Hinrichs, who was a teacher of music, was despondent and ended her life by swallowing poison.

PICNIC LUNCH IS COOKED WHILE MOTORISTS MOTOR

County Treasurer George Johnson has solved many problems of motor comfort and as an enthusiastic picnicker he is in a class quite alone.

It happens that Johnson is equally as enthusiastic over chicken fricassee as he is motoring, and the problem of supplying a nice hot drumstick for his picnic luncheon is a problem that has worried him not a little. But now he has it!

Last Sunday he loaded onto the running board of his car a fireless cooker, loaded to the brim with fricassee, potatoes to be roasted and other delicacies. When camp was spread a few hours later in a shady nook north of Willits—but what's the use of working up an appetite like that when one has neither a chicken farm, an auto nor a fireless cooker. But it worked and the new "cook" has become a very important part of the equipment of the Johnson car.

BROWNIES VS ANGELS

The Ukiah Brownies and the Ukiah "Angels" will mix on the local diamond Sunday in what promises to be a hotly contested game.

MEMORY POOR, BUT THINKS HE WAS SHOT

Tom Olsen, a Caspar fisherman, has a very poor memory. Also he has a severe wound on his forehead, but he can't remember whether he fell down and bumped it or whether someone shot him through the head.

When he appeared in Justice Wallace's court at Mendocino Saturday to pay a fine of $20 for battery, he told the officers that someone had shot him, somewhere, sometime. Dr. Preston made an examination and found the forehead powder-burned and the flesh badly torn.

Later he said that he had fallen down, and only imagined that he was shot. But, to give Olsen the benefit of the doubt, it is apparent from his testimony that he was at least half-shot.

POLITICAL BEE IS BUSY; MANY ARE STUNG

Congressional Timber Is Growing Too Fast For Democracy

WOULD COMPROMISE

Everybody Runs Except Seawell, And They're After Him

The democracy of the first district will have a forest of available Congressional timber to choose from, if prospective candidates continue to step into the limelight with the rapidity which has marked the past week.

At a convention held in San Francisco last Monday pressure was brought to bear on William S. O'Brien, former newspaperman of Marysville, and he was forced to withdraw from the race so that the nomination could be handed, seemingly by the Democratic representatives of the district, to District Attorney Clarence F. Lea of Santa Rosa.

Pledge Is Broken

This selection, however, failed to be a pouring of oil on troubled waters and worked quite the opposite of what the engineers had anticipated. And it all roots upon a prearranged program which for some unknown reason became lost in the shuffle and as a result the counties bordering on the Sacramento valley are peeved all the way through because a campaign promise has not been kept.

The Democracy had agreed that Judge Emmet Seawell, of the Sonoma county superior court, should be their unanimous choice, and the opponent of Edward H. Hart, who carries the unanimous indorsement of every Republican county central committee in the district. But when the suggestion was made to his Honor that he doff his magestrial robes and enter the fray, he declined with the statement that he preferred to sit peaceably upon the bench of justice and be an on-looker rather than a participant in the scramble.

Yuba County Is Peeved

With his declination, the valleys commenced to get busy to scare up a candidate and O'Brien's announcement was made by the Yuba county bunch. They contended that since they were willing to support Sonoma's first choice, they should be given a chance to name the next man. But Sonoma did not "get" the idea. They immediately shoved Lea into the arena and when a scrap loomed up the San Francisco conference was hurriedly called to quiet affairs.

It is said, however, that Yuba, Sutter and Butte counties are not entirely pleased at being shoved into the background and it is a question whether their votes will go to Lea or to Hart.

The Mendocino county central committee of the Democracy remains loyal to Seawell, and still has hopes that he will step into the race in time to save the day.

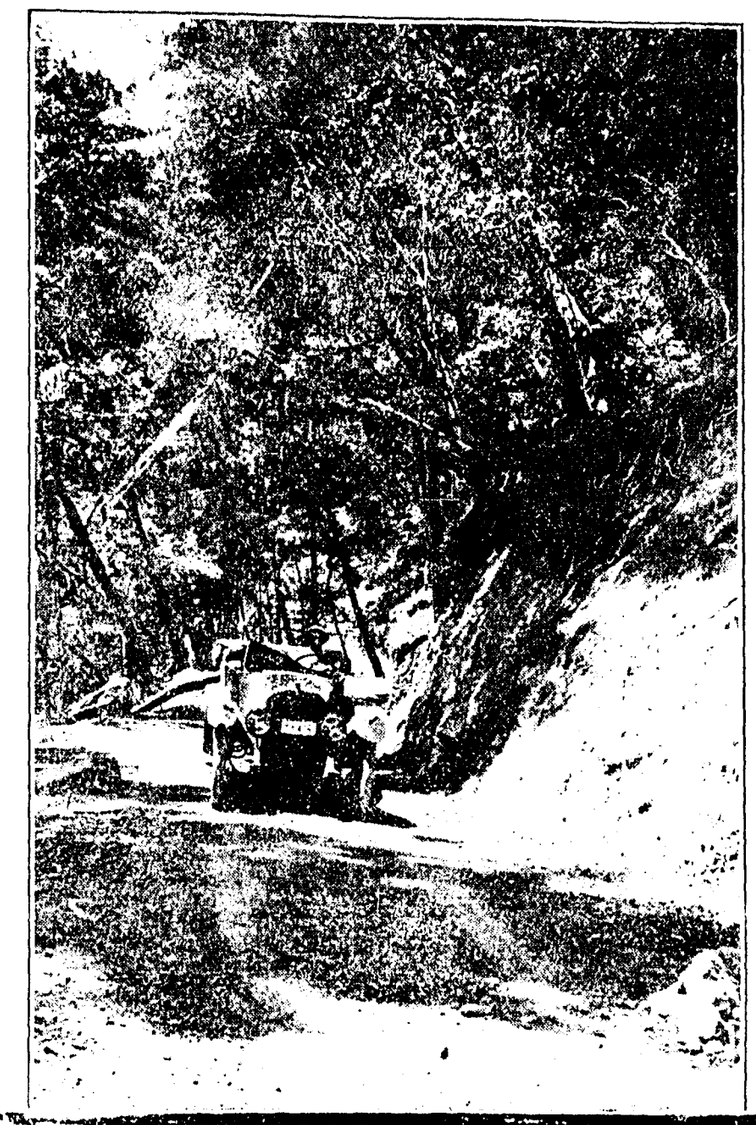
He has been editor of the Press at Lakeport for eleven years and has many friends among newspapermen who will wish him success.

CARLOAD OF SALMON IS SENT TO S. F. BY EXPRESS

The Salmon are now running on the Mendocino coast and large shipments are now being made every day to San Francisco by express. Last Wednesday there were five tons besides enough other express to fill a freight car. On account of the longshoremen's strike all of the fruits, vegetables and other articles of like nature is now being shipped through here by express.

'Midst Scenic Grandeur

San Francisco motorists enjoying a tour along one of Mendocino's picturesque highways.



MENDOCINO LURES MANY MOTORISTS

Beautiful Vistas, Wonderful Drives Admired by Visiting Tourists

By LEON J. PINKSON.

CALIFORNIA offers no greater variety of scenery in any one section of the State than that which is embraced within the boundary lines of Mendocino county. In point of variety no fitting summary can be made of its extent or its magnificence in either one or a hundred well-chosen paragraphs.

No word picture can adequately describe the county's wonderland of scenery, its fertile slopes and verdant meadows, its remarkable groves of pine, fir, cypress, oak, redwood and fruit-bearing trees, and its beautiful flora, so as to arouse in one a conception or appreciation of Mendocino's outdoor charms. To really understand this, one must go and see for one's self.

Over Sherwood Road

The following account of a tour through Mendocino county, made by a party of San Francisco motorists is not intended as a description of the joys of that trip, but merely as a guide for other motorists who can appreciate the unusual in nature and her rarest and most remarkable manifestations.

Crossing the Sonoma-Mendocino county line, just north of Cloverdale, the tourists followed the State Highway to Ukiah, thence to Willits. At the latter place they took the road leading to Sherwood, thence north and west to the coast, passing through Mitchell's, Branscomb, De Haven, Westport, Kibesillah, Newport, Inglenook to Fort Bragg, ariving there late at night.

Beauties Along Coast

Leaving Fort Bragg early the next morning, the tourists retraced their course as far north as DeHaven, from which point they continued still further north along the coast, passing through Hardy, Union Landing, Rockport, Devilbiss, Usal, Kenny and French, where camp was pitched for the night.

Being near the Humbeldt county line and deciding to see more of the wonderful, rough coast scenery of Mendocino, the following day the motorists drove back to Fort Bragg, thence down the coast, passing through a score or more of lumber camps, the principal ones of which were Noyo, Mendocino City, Albion, Greenwood, Manchester, Point Arena, and Gualala. From the latter point the return trip to San Francisco lay along a route which practically bisected Sonoma county diagonally, thence via the State Highway to Sausalito.

Few Rough Roads

Motorists who may desire to duplicate the tour of this party should not be particularly concerned over rough roads. Such conditions will be found in many places along the route described, but it is stated that the wonderful scenic charms of the journey will more than compensate one for the possible trials and tribulations resulting from bad stretches.

Immediately after leaving Willits motorists will find a long climb over the ridge to Sherwood, most of the road being quite rough and in some places dusty. While the scenery is delightful, as it is the first of the mountainous variety after leaving San Francisco, the real scenery does not begin until, about midway between Sherwood and Branscomb, the snow-capped Sierra come in to view, and as one emerges from the frequent groves of timber wonderful vistas of valleys and the distant coast range unfold themselves in awe-inspiring panoramas.

The Picturesque Route

Be'ween Branscomb and De Haven, a distance of seventeen miles, is a fine mountain road, as good as any in the State, which winds in picturesque fashion over the range and down to the coast. The average grade may run a trifle over 6 per cent, but it is so smooth that one really forgets it is a mountain road.

Leaving De Haven and going north one encounters a fair road, and just beyond Hardy is what is known as the Hardy creek grade, than which there is no more picturesque mountain road in the State. It is almost a duplicate as to road service of that just east of De Haven over the ridge, but it has been so laid out that it seems to actually scale a perpendicular wall. Every time one guides his machine around a curve a section of the road below comes into view. Most of the turns are of the hairpin variety and up near the top of the mountain there are a dozen points from which one can get views of from three to five tiers of the road, like so many gigantic steps in a stairway from the gorge to the summit. The difference in altitude between the top of the mountain and the canyon bed is fully 1800 feet.

Scenery Is Beautiful

Between Rockport and Devilbiss the road trails a stream part of the time, then climbs up one of the sides of the mountains for a while only to drop back to the stream again. Foxgloves and rhododendrons grow in great quantities along the road, as well as a score of other kinds of wild flowers which are seldom found in other parts of the State, certainly not attaining so glorious a size as they do in Mendocino.

Between Westport and Fort Bragg there is a piece of road which literally hangs out over the angry sea. Many motorists, especially those subject to timidity, would prefer to drive over this with their eyes shut, for in their minds certain death lurks just around the next curve. There are extremely few places where cars may pass, but fortunately many cars do not have to pass along there.

The Ten Mile Bridge.

A short distance beyond is Ten Mile creek, which is spanned by an exceedingly long timber bridge, a model of its type of construction. From Fort Bragg south to Gualala, just beyond which one enters Sonoma county, the marine scenery is magnificent. Nothing in California compares with it. Every jutty projection of the land has its quota of gigantic, jagged rock formations, every cove is littered with sharp-toothed boulders, and around each and piled on the sandy strips between, are mute evidences of marine disaster of the past.

GOLDEN WEST HOTEL IN SAN FRANCISCO RE-OPENED

The Golden West Hotel, San Francisco, long the favored stopping place of many local people when they visited the metropolis, has been re-opened by Fred Plagemann. He has been the proprietor for the past 20 years. A disagreement with the agents of the place led him to close the hotel this spring, but this now has been adjusted and Plagemann has the hotel again open, even cosier than before.

It appeals to particular people because it is particularly good; Old Gilt Edge Whiskey, rye or bourbon.

James J. Corbett by Walt Mason

Once there were giants in the land, men who could scrap to beat the band. In modern times the cheapest skates are known as champeen heavyweights, but long ago, when Jim was young, men didn't fight with jaw or lung, but used their fists, and used them well—brave days of Jackson and John L.! They slugged away, while they could stand, when there were giants in the land. And Corbett won his laurels then, among those mighty fighting men. He was the champion when that meant something more than getting fat, and standing, in a graceful pose, to figure in the movie shows. He's an authority on sport, and his decrees the wise ones court. He's an authority on smokes, and as his trusty pipe he stokes, he often says, "Tuxedo's best; it has the edge on all the rest."

JAS. J. CORBETT

Famous Prizefighter and Actor, says:

"My enthusiasm for the fragrance and mildness of Tuxedo has no limit. Tuxedo is without doubt the most satisfactory pipe tobacco."

If you never stopepd to think how you are robbing your employer when you accept your pay check on Saturday night, this efficiency expert has done it for you. According to his calculations, you only work one day in the year.

And here's the way he figures it:

One year =365 days, less one-third of the time, 122 days, sleeping, 243 days left; less another third, 122 days, traveling, recreation, etc., 121 days left; less 52 Sundays, 69 days left; less 12 holidays, 31 days left; less lunch time (1 hour per day), 15 days, 16 days left; less two weeks vacation, 14 days, 2 days left; if you keep your Yom Kippur, 1 day left—the day you work

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

THE NEWEST REMEDY
FOR
Backache, Rheumatism and Dropsy.

Kidney, Bladder and **Uric Acid** troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "An-uric," the new discovery of Doctor Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. If you wish to know your condition send a sample of your water to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined **without any expense to you,** and Dr. Pierce or his Staff of Assisting Physicians will inform you truthfully.

LUNA'S PERFORMANCE ON SCHEDULE TIME

For some time Friday night the moon, which should have been full, looked like a slice of watermelon suffering from a felonious assault by a small boy.

The luminary arose with a large chunk bitten out of the left-hand side. As time went on more and more was eaten away until only a thin sector was left to smile faintly on lovers and the like.

All of this was according to schedule. The moon did just as the astronomers told her to. The eclipse began about 7:09 o'clock while the moon was still below our horizon. It reached its maximum at 8:46, and was all over at 10:02 o'clock.

WEDDED HUNDRED YEARS, SAYS RECORD; ONLY WEEK

While Editor William Hanen of the Point Arena Record is sojourning at the Hanen homestead near Philo, the office devil, who has been promoted to editor in chief, is dabbling in ancient history, apparently.

Through an amusing typographical error, the Record boldly states that Herman Fairbanks and Miss Loretta Charlotte Studebaker were married at Manchester Monday afternoon, July 10, 1816.

The ceremony which was performed last week by the Rev. Duncan Monroe united two popular young people, Fairbanks being a prosperous youg rancher of Manchester and the bride being the charming daughter of Mr. and Mrs. Jacob Studebaker of Stege, Cal.

LUMBER COMPANY STARTS "LITTLE VALLEY" COLONY

The Glen Blair Redwood Company began the colonization of Little Valley last week when seven families, comprising thirty-nine persons, were sent out to the valley to establish homes there, says the Mendocino Beacon. The new settlers are Portuguese and came from Honolulu. Another party is on the way here and will arrive shortly. The company allows each family to take up a certain amount of land which they are expected to improve. Until they are able to make a living from their farms, the men are provided with work in the company's mill.

Biliousness and Stomach Trouble.

"Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbryke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.

TWO WOODSMEN TRY SUICIDE; ONE HACKS THROAT, ONE HANGS

DESPONDENCY IS RESPONSIBLE FOR DOUBLE TRAGEDY IN LUMBER CAMPS

Andrew Hoaganen, a woodsman, was found dead in a cabin near the Albion Lumber company's mill last Friday morning, having strangled himself to death with a necktie.

Hoaganen had been in Albion only two days, but had worked for some time making ties for Tom Johnson at Wendling. He had been at Fort Bragg for the last seven or eight years and is said to have been drinking heavily. No money or other valuables were found upon his person. Several of his countrymen claimed that he leaves a wife and five children back in Finland.

Caspar Man Cuts Throat

Victor Carlson, an empolyee of the Caspar Lumber Company, was found under the bed in his cabin last Thursday evening at 7:30 with his throat cut from ear to ear and his chest horribly gashed. Carlson had inflicted the ghastly wounds with a razor about an hour before he was found and, had lost a considerable quantity of blood. He had been drinking heavily ever since the Fourth of July, it is said, and his rash act was evidently the result of despondency.

PIONEER STAGE DRIVER ANSWERS CALL OF DEATH

Joe Stokes, one of the first pioneers to pilot a mail stage over the grades of Mendocino county, passed away at Fort Bragg last Thursday after a lingering illness and the funeral services were held Friday afternoon under the auspices of the Eagles, to which order he had long been a member.

Stokes was born in Fitsville, Penn., August 20, 1854, and after coming to Mendocino county drove the Mendocino-Cazadero stage for many years.

He is survived by one daughter, Miss Verna Stokes, and has many friends who will extend to her their deepest sympathy.

SLASHED BY COUNTRYMAN, ITALIAN REFUSES TO TALK

R. Dinotto, an Italian woodsman employed in one of the Caspar camps, was here Saturday and called on Dr. Preston to have some very serious knife wounds on his head and face attended to, says the Mendocino Beacon.

Dinotto had been badly cut by a knife in the hands of a fellow countryman, but would give no information as to who his assailant was nor inform the authorities regarding the matter.

The wounded man was cut over the head and eye, a slice had been cut out of his cheek, and the knife, descending, had slashed his chest and cut his hand. Dr. Preston had to take ten stitches in sewing up the wounds.

EARLY GRAPES SHIPPED
